

Vintage Optical has demand support.

Win by measuring the friction.

Morton, Illinois | Public-only directional evidence | Evidence reviewed 2026-07-30

54

/ 100

Client Opportunity Score

This is not a grade. It is directional evidence from public sources only.

MEASURE FIRST |
CONFIDENCE C

THE READ Demand evidence improved, but pressure remains meaningful. Review trust comes from **one bounded Google sample**. The next move is measure-first testing, not broad spend.

1

YOUR MARKET

Modeled catchments show a broad demand base, with observed local growth support.

Market Demand-Supply

61 / 100

Higher = more attractive

Window	Population	Households	Under 18	Age 40-64	Age 65+	Diabetes context
5 min	6,624	2,722	1,712	1,811	1,311	9.6%
10 min	19,322	7,873	4,571	5,843	4,291	10.9%
15 min	54,768	23,793	11,707	17,431	10,939	12.4%
20 min	173,058	75,244	38,652	53,102	32,473	13.2%
30 min	283,661	120,940	64,831	86,558	53,258	12.3%

Modeled area-weighted estimates, not patient counts. Full VDU remains null. No live traffic.

+2.29% Observed population: 17,172 in 2020 to 17,565 in 2025, +393. Village change, not a forecast.

+3.92% Observed enrollment: 3,238 in 2022-2023 to 3,365 in 2025-26, +127. 2023-24 is missing and not interpolated.

2

YOUR COMPETITION

Pressure is real. The evidence supports controlled tests, not a broad competitive claim.

Competitive Pressure

57 / 100

Higher = more pressure

Practice Competitiveness

61 / 100

Higher = stronger

Digital Presence

60 / 100

Higher = stronger

Room to Win

43 / 100

Higher = better

Client Opportunity

54 / 100

Public-only directional score

Exact inverse

43

Room to Win = 100 - 57 = 43

CORRECTED FOCUS ROUTE

233.4 seconds | 3.89 minutes | 1.53 miles

Direct Google listing pins. No live traffic. The correction does not change the score band.

BOUNDED REVIEW TRUST SAMPLE

Vintage 4.9 / 348; Focus 4.8 / 182; Tri-County 4.9 / 271; Walmart 3.5 / 8. One same-page Google sample. The rank grid did not run. This is not a complete peer export, and canonical office count remains null.

3

YOUR OPPORTUNITY

Three specialty lanes rank closely. Each needs research before investment.

1

Dry eye

RESEARCH NEXT

53

Would move with observed demand, referral flow, delivery capacity, and outcomes.

2

Myopia management

RESEARCH NEXT

53

Would move with inquiry, referral, program capacity, completion, and outcomes evidence.

3

Specialty contact lenses

RESEARCH NEXT

51

Would move with qualified demand, referrals, chair time, remakes, capacity, and outcomes.

Digital Presence

60 / 100

Bounded measurement lever: establish local visibility, source-specific reputation, and booking completion baselines. This is not a revenue projection.

Unknown stays null: canonical office count, Full VDU, rank grid, complete provider entity dedupe, patient choice, live traffic, conversion, capacity, outcomes, economics, and cross-platform review total.

FIRST
30 DAYS

Fix Card 1: Visibility baseline

Owner: Marketing lead

First proof: Approved query set and geographic rank-grid export.

Cadence / decision: Baseline, then monthly. Act on repeatable query gaps.

Kill rule: Stop if geography or entity matching cannot be reproduced.

Fix Card 2: Reputation source control

Owner: Practice manager

First proof: Platform-specific count, recency, and response baseline.

Cadence / decision: Reconcile monthly. Choose one measured workflow.

Kill rule: Stop cross-platform totals without dedupe.

Fix Card 3: Booking completion

Owner: Operations owner

First proof: Non-PHI funnel numerator and final denominator.

Cadence / decision: Weekly for 30 days. Fix the highest verified drop-off.

Kill rule: Stop if capacity or ownership is unavailable.
